

Baheeja Ali

PYTHON FULL STACK DEVELOPER | DJANGO | REACT.JS | REST APIs

Qatar | +974 60049713 | baheejaali3@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Python Full Stack Developer with hands-on experience building web applications using Python, Django, Django REST Framework, React.js, and PostgreSQL. Developed projects including an e-commerce platform with payment integration and AWS deployment, a task management application, and an AI-powered product description generator. Skilled in REST API development, database management, frontend-backend integration, and multi-step AI workflows. Seeking an opportunity to contribute technical skills and grow as a software developer.

TECHNICAL SKILLS

Programming: Python, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, Vite

Backend: Django, Django REST Framework (DRF), Django ORM, REST APIs

Database: PostgreSQL

AI and LLMs: OpenRouter API, prompt engineering, LLM integration, multi-step AI workflows, response validation

Tools and deployment: Git, GitHub, Postman, VS Code, AWS EC2, Gunicorn, Nginx, CI/CD pipelines

Data structures and algorithms: Arrays, linked lists, stacks, queues, searching, sorting, recursion

PROJECTS

AI Product Description Generator | [GitHub](#) | Oct 2026

Individual project

- Built an AI-powered application using Python, Django, and React to generate structured product descriptions from provided features.
- Designed a three-stage Planner, Executor, and Validator workflow; added output validation and retry logic to improve consistency.
- Integrated an external product-search API and injected retrieved context into prompts.

Technologies: Python, Django REST Framework, React, JavaScript, OpenRouter API, REST APIs, Git, GitHub

TaskForge – Task Management Application | [GitHub](#) | Sep 2026

Individual project

- Developed a React task manager supporting task creation, editing, deletion, and completion tracking.
- Used React Context API for shared state and integrated a Django REST Framework backend for CRUD operations and persistence.
- Connected the frontend to REST APIs using `fetch()` and `useEffect`; added responsive styling and dark mode.

Technologies: React.js, Context API, Hooks, JavaScript, Vite, Python, Django REST Framework, CSS, REST APIs

HerChoice – E-commerce Platform | [GitHub](#) | Oct 2025 – Feb 2026

Individual project

- Developed an e-commerce application with authentication, email verification, product management, cart, wishlist, and order management.
- Integrated Razorpay payments and an in-app wallet, plus coupons, referrals, cancellations, and refund handling.
- Built an admin panel and deployed on AWS EC2 using Gunicorn and Nginx; used Git and GitHub for version control.

Technologies: Python, Django, PostgreSQL, HTML, CSS, AWS EC2, Gunicorn, Nginx, Git, GitHub

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering — MEA Engineering College, Perinthalmanna, Kerala, India | 2012–2016 | 77%

Higher Secondary Education — MES Higher Secondary School, Irimbilyam, Kerala, India | 2010–2012 | 82%

SSLC — MES Higher Secondary School, Irimbilyam, Kerala, India | 2010 | 82%
